

Ortle McManigal, and contained evidence tending to show complicity in dynamite explosions.

To Probe Intimations.
Frank P. Baker, county prosecutor, today announced that the grand jury's investigation would go into intimations that there was a conspiracy against the Iron Workers' Association and its officials, resulting in the "planting" of the dynamite, to create evidence against them, in their office building. These allegations were contained in statements attributed to the union officials.

Mr. Baker said that the grand jury would probe the charges that the dynamite was collected here with the intention of using it to destroy buildings being erected by contractors employing non-union iron-workers. The depositing of the dynamite in the basement of the office building was, in itself, he said, an offense against the statutes of Indiana. The iron-workers today engaged a number of additional attorneys, and friends of Secretary McNamara employed counsel for him personally. Henry Seyfried, McNamara's attorney, today in an interview, denounced extradition of McNamara as an "outrageous illegality," and said he believed that the detectives concerned were guilty of kidnapping under the laws of Indiana.

Great Secrecy Observed.
Los Angeles, Cal., April 24.—Creating confusion in order to protect the secret of the date and place of the trial, the Southern Railway and Ortle McManigal will arrive to face the charge of having destroyed the Times plant, has been for two days the principal occupation of the officials who will be charged with the safe-keeping of the alleged conspirators.

That they are coming across the continent by zigzag routes is asserted on all sides. Chief of Police Sebastian today said he believed that the prisoners and their guards would not arrive for two weeks. Sebastian said that he will be directly charged with the custody of the alleged plotters, declared they probably would not arrive until the last of this week, instead of Wednesday, as expected.

Hammel laughed when told that the prisoners had been seen by Kansas City and other points to-day, and suggested that the handcuffed men seen aboard the trans-continental trains were dummies whose expenses were paid to throw off the trail any one who might stop the passage of McNamara and the charges with habeas corpus writs or by more speedy and violent means.

Hammel said that those in charge of the McNamara and McManigal might change routes several times during the trip and come by way of the Southern trunk lines or through in any case, one of the county motor cars will be sent fifty or sixty miles out of the city to meet the prisoners and bring them secretly to the county jail. A large detail of new policemen examined to-day by Chief of Police Sebastian.

The iron workers are on a strike here, and though there has been no belligerent expression from the union men, the police regard the situation as menacing. Several police officers expressed the fear that the arrival of the McNamara and McManigal might be the signal for the long threatened general strike for unionizing Los Angeles.

Such fears are unfounded, according to a statement issued today by J. J. Timmons, general organizer of the iron workers, who is in charge of the strike here.

"DUKE" IS IN TROUBLE

Picturesque Character Will Figure in Bankruptcy Proceedings.

Trenton, N. J., April 24.—The United States Court has appointed Henry J. West receiver for William J. Thompson, of Gloucester, N. J., who for many years was a picturesque figure in Democratic politics of the State.

Known as the "Duke of Gloucester," because of his large ownership of property and his control of affairs in and about Gloucester, Thompson at one time was rated as a millionaire.

He owned the Gloucester race track, which became famous when there were running races during the greater part of the year.

The application for the receiver was made by John A. Rosenthal Sons, of Trenton, and other creditors.

No schedule of assets or liabilities was filed, but it is understood Thompson's assets exceed his liabilities. It is said the receivership was hastened by the action taken last week by creditors of the Gloucester Ferry Company in asking for a receiver for that concern, which was controlled by Thompson.

Recently Thompson sold his beautiful residence on the Delaware River front in Gloucester to the government to be used as an immigrant station.

Dr. Knott, a traveler and lecturer of considerable renown, gave a most realistic description of his journeys in Eastern lands and the Mediterranean Sea.

Upon finding that \$200 was still lacking to the total sum needed before the building of the new church could be undertaken the board of the Decatur Street Methodist Church last night decided to extend the time limit of the campaign until next Monday night, when the board will meet again.

And determine the exact date for commencement of work. A total of \$149 has been subscribed by the congregation of Decatur Street in a ten-day campaign, which brings the total total contributed toward the new building to \$649.

TREES STRIPPED

BY HAIL-STORM

Early Vegetation Probably Damaged by Sunday Night's Frost.

Times-Dispatch Bureau.

109 North Sycamore Street, Petersburg, Va., April 24.

A severe hailstorm passed over a portion of Matamoras district, in Chesterfield county, Saturday afternoon, covering an area several miles long and a couple of miles wide. The trees in this territory were stripped of their young foliage. The hailstones were small, but in some places they covered the ground to a depth that they could be shoveled up. In Petersburg there was a heavy rainfall at the time.

The fruit in this section was pretty well killed by the severe cold and frosts of several weeks ago. There was a heavy white frost this morning, which may have done some damage to advanced vegetation.

Charged With Assaulting Wife.

A warrant was issued yesterday for the arrest of R. V. Tyree, residing on Chandler's street in the western part of the city, charging him with feloniously assaulting and beating his wife on Saturday night. The complaint was made by a neighbor who heard the disturbance and the woman's cries. When the police visited the house, they found a heavy fight in progress. They found everything quiet within and the occupants gone. The appearance of the room, with its upset stove and chairs and general disordered condition, indicated that a severe struggle had taken place, and the blood on the floor and walls and bunches of a woman's hair lying about, gave indication of a severe struggle. Mr. and Mrs. Tyree disappeared some time Saturday night, and their whereabouts has not yet been discovered.
